Interagency Post-Secondary Transition Process in SC

School:

Engages student and parents in planning process Develops & implements Individual Education Plan

Representatives from local school districts, SCVRD area offices, the DDSN service delivery system and other key interagency partners meet regularly to work at the systems level to improve post-secondary outcomes for eligible individuals with disabilities. Focus is placed on implementing best practices from current literature, from guidance issued by national technical assistance centers and from hands-on experience gained through local partnerships.
